- FIREBASE

PROJECTS

ECOMMERCE WEBSITE

React.js, Firebase, Rest API, Bootstrap, GitHub

⌘ /MayankTiwari9/Ecommerce-React

🔗 https://ecommerce-react-f995d.web.app/

- Developed an E-commerce website with pre-loaded products, enabling cart management and detailed product exploration.
- Utilized Firebase for user interactions, including login, signup, and seamless functionality implementation.

WEATHER APP

React.js, Rest API, GitHub

⌘ /MayankTiwari9/WeatherApp

🔗 https://sprightly-brioche-3e35c1.netlify.app/

- Created a responsive weather app with real-time conditions and OpenWeatherMap integration.
- Facilitated location-based weather searches through a mobile-responsive design.

EXEPNSE TRACKER

React.js, Rest API, GitHub, Firebase

⌘ /MayankTiwari9/Expense-Tracker

🔗 https://expense-tracker-react-1867a.web.app/

- Designed and deployed an Expense Tracker website with Firebase integration, ensuring secure real-time data storage.
- Implemented user-friendly features, robust authentication, and a responsive interface for efficient expense tracking.

CETRIFICATION

HTML,CSS, JAVASCRIPT :- UDEMY Certificate
JAVA BASIC CERTIFICATE :- HACKERRANK Certificate
